Windstar is rewriting the script on Mediterranean vacations with an exciting new 2024-2025 winter season offering even more once-in-a-lifetime experiences, more personal interactions with locals, more time at must-see attractions and more ports of call. In fact, Windstar will be one of the few cruise lines sailing these waters this time of year. It's a whole new way to discover the Mediterranean, with an expanded selection of winter itineraries that give you more choices than ever.

The dark days of winter are anything but as Europe decorates for the holidays. Lights beam on the exterior of Barcelona's Sagrada Família, on Christmas trees in Rome's St. Peter's Square, and on the canals in Venice. Christmas markets and ice rinks glow with festive lights and decorations.
